Art Unit: 3682

1. The Preliminary Amendment filed on August 26, 2003 has been entered.
2. This application contains claims directed to the following patentably distinct species of the claimed invention: the species of Figs. 1-5 (claims 21-23) and the species of Figs. 1, 6, and 7 (claims 21 and 24).

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claim 21 is generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Art Unit: 3682

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

4. A telephone call was made to Mr. Andrew S. McConnell on June 21, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

5. The information disclosure statement filed August 26, 2003 fails to comply with 37 CFR 1.98(a)(2), which requires a legible copy of each U.S. and foreign patent; each publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered.

Applicant submitted only the English abstract of the Japanese Document No. JP4191526. The copy of the full text of the instant Japanese document has not been received. Note that the submission of an English language abstract of a reference or an English language version of the search report by the foreign patent office may fulfill the requirement for a concise explanation under 37 CFR 1.98(a)(3)(i), but not the requirement for a legible copy of foreign patent under 37 CFR 1.98(a)(2)(i). See MPEP 609, 1273 OG 55 or 1280 OG 91.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Vinh T. Luong whose telephone number is 703-308-3221. The examiner can normally be reached on Monday - Friday.
